Use of Estimates in the Preparation of the Financial Statements

The Company prepares its statutory financial statements in conformity with the NAIC Annual Statement Instructions. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and losses and expenses during the reporting period. Actual results could differ from those estimates.

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates, based on reports received from ceding companies for reinsurance, and an amount for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and adjustments are reflected in the period determined.

- 2. Under the terms of a tax allocation agreement between Old American Capital Corporation ("Old American Capital"), formerly known as Portsmouth Capital Corporation), a Delaware corporation, and its subsidiaries, the tax liability of each subsidiary of Old American Capital, including that of the Company, is based upon separate return calculations. The Company is required to make payment to Old American Capital of an amount equal to its share of tax liability no earlier than thirty days prior to Old American Capital's filing date and no later than thirty days after the filing date. In the event the Company would be entitled to a refund of federal income tax for any tax year if it had filed a separate tax return, Old American Capital is required to pay the Company the refund amount when the Consolidated Return is filed by Old American Capital, and no later than thirty days after the refund amount is calculated. If for any taxable period the Company has an item of credit or loss that is not used to reduce its federal income tax liability for that period, that item of credit or loss shall be reatined by the Company for possible future use in computing its separate return tax liability or its right to a refund.

In the event the Company has a tax liability that would be due to Old American Capital, but not paid because Old American Capital does not have a tax liability to be paid to the Internal Revenue Service, the Company's liability will be recognized as a surplus contribution from the Parent, Old American Capital.

The Company does not own any investments that are considered to be other than temporarily impaired. All bonds held are reported at amortized cost in the statement of financial position. Short term securities and cash equivalents are valued at amortized cost.

Fair value of the Company's invested assets is determined and reported for disclosure purposes in accordance with the Purposes and Procedures Manual of the NAIC Investment Analysis Office when available. For those investments not valued by the NAIC Securities Valuation Office, prices were obtained from an independent pricing service vendor such as Interactive Data Corporation, Merrill Lynch indices, Reuters, S&P or Bloomberg. Under certain circumstances, if neither an SVO price nor a vendor price is available, a price may be obtained from a broker.

Transfers between fair value levels are recognized as of the end of the reporting period. During the third quarter of 2025, the Company did not have any transfers between Levels 1, 2, or 3 for assets measured and reported at fair value.
